About Cities of Service

Cities of Service is a nonprofit organization that helps mayors build stronger cities by changing the way local government and citizens work together. We help coalition cities tap into the knowledge, creativity, and service of their citizens to help identify and solve critical public problems. Cities of Service supports a coalition of more than 270 cities, representing over 83 million people across the Americas and Europe.

With a data-driven focus on creating measurable results, Cities of Service provides counsel, expert technical assistance, and proven resources to city leaders and their staff. We bring coalition members together to share best practices, expand networks, and deepen relationships. We also design and manage competitive grant programs for cities that leverage our expertise in advising and connecting cities.

Since 2015, Cities of Service has placed AmeriCorps VISTA members in city halls across the country to build capacity and drive progress on pressing local challenges. Learn more about the impact and experience of past Cities of Service AmeriCorps VISTA members [here](#).

About Guiding Opportunities

In 2019, Cities of Service awarded each winning city \$25,000 to support community visioning and volunteer initiatives that engage citizens in the OZ planning process. In addition, two AmeriCorps VISTA members will be placed in each winning city to serve as community engagement specialists.
